EXECUTIVE PROFILE

CORE TECHNICAL COMPETENCIES & ARCHITECTURAL EXPERTISE

Deep Learning & Neuro-AI:	Vision Transformers (ViT-B/32), CNNs, Grad-CAM, Attention Rollout, Perturbation Faithfulness, PyTorch, TensorFlow, Medical MRI Imaging (Evidence 03, 04)
Generative AI & LLM Systems:	Multi-Agent Orchestration, Graph RAG, Agentic Web Automation, Prompt Engineering, OpenAI GPT-4o, fal.ai, FASHN Diffusion API (Evidence 05, 08)
Full-Stack & Cloud Architecture:	Next.js 16 (App Router), React 19, TypeScript, FastAPI, Python, Docker, Node.js Express, Tailwind CSS, Vercel Edge, Supabase (Evidence 05, 06, 08)
Engineering Leadership & Security:	Zero-Auto-Click Browser Security, Manifest V3, WebAudio DSP, Stripe Billing Webhooks, Firebase ACLs, 300-DPI Prepress (Evidence 05, 08, 10)

PROFESSIONAL & FOUNDER LEADERSHIP EXPERIENCE

Founder & Principal AI Architect | RimansTech Industries (London, UK) — Nov 2024 -- Present | Official URL: https://www.rimanstech.com

Direct the product vision, machine learning research, and full-stack engineering of RimansTech Industries, a product-led AI technology company.
- Conceived and engineered 5 proprietary AI products: AIzDetect (alzdetect.live), AI Quest (aiquestgame.com), VoiceDress (voicedress.com), Pointly (gopointly.com), and Young AI Explorers Platform (youngaiexplorers.net). All deployed with live public verification URLs.
- Architected proprietary multi-stage diffusion pipeline for VoiceDress with Stripe recurring subscriptions (GBP 19/mo, GBP 149/yr).
- Engineered Pointly Chrome Manifest V3 extension featuring zero-auto-click security guard and dynamic DOM pointer overlay.
- Organized and host official AI Quest London Rooftop Playtesting Showcase at cloudM Rooftop Bar, citizenM Tower of London.
- Lead client product engineering contracts, transforming complex AI research into deployed, testable web platforms (Evidence 05, 08, 10).

Technical Operations Specialist | Deloitte (London, UK) — Sept 2025 -- Present | Workplace Technology / Smart Facilities

- Manage enterprise smart facilities technology and client service infrastructure across Deloitte's London executive workspaces.
- Maintain systems expertise in Deloitte Smart Wayfinding and automated physical security access management (Cardex / Gallagher).
- Advised by Barry Evans, Director of Workplace Technology at Deloitte UK, on translating applied AI research into scalable solutions.

Machine Learning Engineer (Research Internship) | Middlesbrough Football Club (UK) — Jan 2024 -- May 2024 | Sports Analytics & Predictive Modeling

- Developed machine learning models to classify player performance and predict injury risks based on longitudinal physical profiling data.
- Applied gradient boosting and regularization techniques to identify key physical performance indicators, preventing model overfitting.

Founder & Technical Lead | The Legitimate Store (E-Commerce & Retail Technology) — Feb 2018 -- Aug 2025 | Remote / Hybrid

- Founded e-commerce venture; architected 'Lana', a predictive ML customer recommendation and demand forecasting engine.
- Engineered high-performance Progressive Web App (PWA) with deterministic state management, driving end-to-end sales growth.

FLAGSHIP SHIPPED AI PRODUCTS & TECHNICAL INNOVATIONS (OC1 / OC3)

AlzDetect -- Explainable Clinical Neuro-AI Diagnostic Platform (alzdetect.live)
Stack: Next.js 15, FastAPI, Vision Transformer (ViT-B/32), Docker, WebSocket Vault | Doc ID: RT-ARCH-ALZ-2026-V1
- Architected end-to-end clinical platform classifying 4 stages of Alzheimer's Disease from MRI scans with 99.00% accuracy and 0.9994 ROC-AUC.
- Pioneered 12-layer Attention Rollout and Grad-CAM interpretability visualizations, solving black-box opacity in medical decision support.
- Evaluated and validated by Dr. Ademola Adewara, Principal Medical Officer at Federal Medical Centre, confirming clinical readiness (Evidence 03).

AI Quest -- Machine Learning Simulation Platform (www.aiquestgame.com)
Stack: TypeScript, React 19, Next.js, WebAudio API, 300-DPI Prepress Factory | Doc ID: RT-AIQ-ARCH-2026
- Designed full simulation engine modeling the 7-stage ML lifecycle (Data Collection to Deployment) across 15 mission domains and 240 cards.
- Engineered zero-scroll mobile game cockpit (<1024px) and procedural WebAudio synthesizer for silent-switch mobile unlock (Evidence 05).

VoiceDress -- Voice-First Generative Fashion & Virtual Try-On Engine (www.voicedress.com)
Stack: Next.js 16, TypeScript, FASHN AI, fal.ai Diffusion, Firebase, Stripe | Doc ID: RT-PRD-VDP-2026-V1
- Engineered hands-free voice styling interface with natural-language occasion parser, weather API integration, and multi-stage try-on.
- Integrated Stripe checkout and webhook subscription billing (GBP 19/mo, GBP 149/yr) for commercial monetization (Evidence 08).

Pointly -- AI-Powered Web Navigation Assistant & DOM Analyzer (www.gopointly.com)
Stack: Chrome Manifest V3 Extension, React 19, Express, Node.js, GPT-4o | Doc ID: RT-PRD-VDP-2026-V1
- Built browser navigation agent calculating optimal user paths and projecting floating SVG pointer with zero-auto-click safety lock (Evidence 08).

Young AI Explorers Platform -- AI-Native Multi-Tenant Learning System (www.youngaiexplorers.net)
Stack: Next.js 16.2, React 19, Supabase, 5-Locale i18n Engine | Doc ID: YAIE-ARCH-2026-V3.4
- Companion platform to published Amazon book; combines 38 interactive lessons across 6 islands with Vision Vee curriculum DAG (Evidence 06).

PEER-REVIEWED RESEARCH & CLINICAL VALIDATION (OC4 / OC3)

Journal Publication Submission: Elsevier Neuroscience Informatics (Manuscript Ref: NEURI-D-26-00238R1)
Title: 'Explainable Vision Transformer (ViT-B/32) for Stage-Wise Alzheimer's Disease Classification from Brain Magnetic Resonance Imaging'
Principal Author: Bassey Riman | Supervising Professor: Claudio Angione (Professor of AI, Teesside University)
- Evaluated on 5,120 brain MRI scans across 4 classes; achieved 99.00% accuracy, 0.9901 macro F1, and 0.9994 ROC-AUC.
- Validated interpretability via Area Under Curve (AUC) Deletion (0.182) and Insertion (0.788) perturbation metrics, proving superior clinical faithfulness over traditional CNN Grad-CAM baselines (ResNet-50 and VGG-16) (Evidence 04).

Independent Clinical Evaluation: Dr. Ademola Adewara (Principal Medical Officer, FMC Iddo-Ekiti)
- Formal medical assessment letter confirming that AlzDetect's explainable attention maps and MRI workflow provide transparent, clinically viable decision-support for neurodegenerative disorder management (Evidence 03 / Recommendation Dossier).

PUBLISHED STEM AUTHORSHIP & UK PRIMARY SCHOOL IMPACT (OC2)

Published Educational Book: 'Young AI Explorers: A Kid's Guide to the Future'
Author & Illustrator: Bassey Riman | Amazon UK ASIN: B0H4KGNW3B | 41 Pages, 37 Chapters, Full-Color Print & Digital
- Designed structured 4-stage educational pedagogy (Story -> Lesson -> Fact -> Quiz) introducing AI, Vision Transformers, Robotics, and Ethics to pupils aged 9--12 (UK Key Stage 2 & 3).
- UK School Library Donation Programme: Personally donated physical copies to UK schools, including Harris Primary Academy Haling Park (London), verified via official school acknowledgment letter from Senior Leadership (Evidence 07).

INDUSTRY RECOGNITION, PRESS FEATURES & SPEAKING ENGAGEMENTS (MC / OC2)

National Daily Press -- Vanguard Newspaper (March 9, 2026)
Featured interview by journalist Chioma Okoye: 'Students must prepare for an AI-driven world -- Riman'. Examined Bassey Riman's advocacy for AI literacy and computational thinking across developing curricula (Evidence 01).

National Daily Press -- The Nation Newspaper (March 27, 2026)
Major media feature on AlzDetect Medical AI research: 'AI research on Alzheimer's detection using Vision Transformers' accompanied by captioned portrait of Bassey Riman (Evidence 01).

Invited Keynote Speaker -- Black AI UK & Loughborough University London (April 23, 2026)
Invited speaker and panelist at 'Inspiring Diversity 2026: Celebrating Black Researchers, Engineers & Data Scientists to Lead the Global AI Revolution from the UK' (East Village, London). 165 attendees, 1,325+ public impressions (Evidence 02).

Technical Thought Leadership Articles on Medium (@basseyriman)
Authored in-depth guides on React dynamic mathematical scaling, offline PWA architectures (PursePro), and Next.js 15 / Framer Motion orchestration for the global developer community (Evidence 09).

EDUCATION & LETTERS OF RECOMMENDATION

Education & Academic Credentials:
- Master of Science (M.S.) in Artificial Intelligence with Advanced Practice (Graduated with Distinction) -- Teesside University, UK (2023 - 2025)
- Bachelor of Science (B.S.) in Computer Science -- University of Cross River State, Nigeria (2010 - 2014)

Formal Recommendation Letters & Clinical Endorsements Included in Application:
1. Prof. Claudio Angione -- Professor of AI, School of Computing, Engineering & Digital Technologies, Teesside University, UK.
2. Barry Evans -- Director of Workplace Technology, Deloitte UK (London headquarters).
3. Dr. Ademola Adewara -- Principal Medical Officer, Federal Medical Centre Iddo-Ekiti (Independent Clinical Evaluator).
