EXECUTIVE FOUNDER OVERVIEW & COMMERCIAL PHILOSOPHY

RimansTech Industries (rimanstech.com) is a London-based, product-led Artificial Intelligence and technology company founded and directed by Bassey Riman. Operating under the motto 'Intelligence, engineered.', RimansTech researches, designs, builds, and commercializes proprietary intelligent digital products?spanning healthcare neuroimaging, consumer generative vision, enterprise browser guidance, and STEM education. Unlike conventional consultancy or agency models, RimansTech operates as an authentic technology venture: inventing and shipping systems under its own brand while deploying selected product engineering for UK founders.

01 | THREE PILLARS OF RIMANSTECH: PRODUCTS, RESEARCH & PRODUCT ENGINEERING

01. Products (Proprietary)

Intelligent digital products RimansTech researches, builds, and ships under its own name:
- AlzDetect: Clinical neuroimaging platform
- Pointly: Browser AI guidance assistant
- VoiceDress: Voice-first generative styling
- Young AI Explorers: EdTech curriculum
- AI Quest: ML simulation card game

02. Applied AI Research

Deep technical inquiry taken from experimental notebooks toward working systems people can inspect:
- Vision Transformer (ViT-B/32) architectures
- Explainable AI & Attention Rollout
- Perturbation faithfulness benchmarks
- Elsevier Neuroscience Informatics research

03. Product Engineering

Selected engineering for UK founders and enterprise organisations turning complex AI into deployed platforms:
- Full-stack AI product engineering
- Next.js 16 + FastAPI + Docker microservices
- Automated pipeline integration
- Zero-downtime cloud deployments

02 | RIMANSTECH DIGITAL HEADQUARTERS & ATELIER PLATFORM (rimanstech.com)

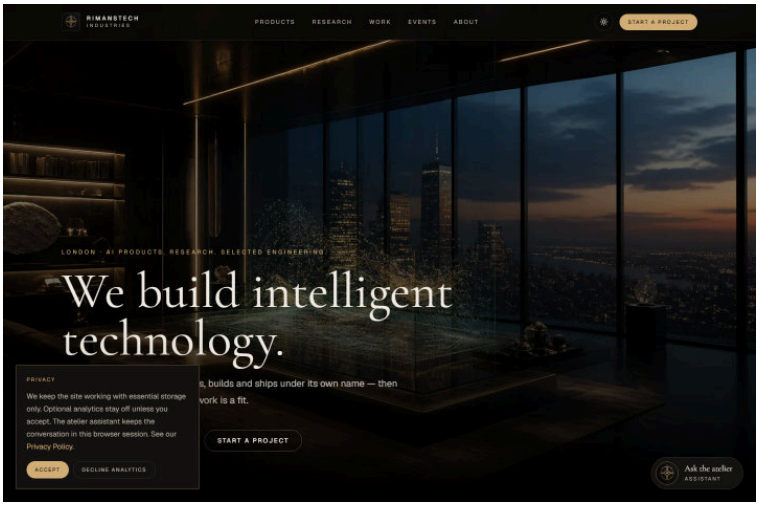

Fig 1.1: Production Homepage at www.rimanstech.com (Next.js 16)

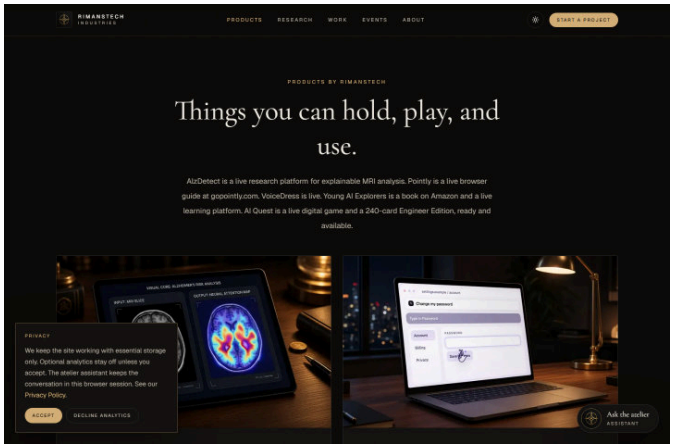

Fig 1.2: Official Products Shelf (/products)

Architectural Distinctiveness: Built on Next.js 16 with custom Dark-Atelier aesthetics, RimansTech features a real-time conversational AI Atelier Assistant (`Ask the atelier`), interactive product showcases, dynamic client consultation workflows, and comprehensive privacy-first cookie management compliant with UK GDPR regulations.

FIVE FLAGSHIP PRODUCTS & MULTI-DOMAIN DEPLOYMENTS

Founder: Bassey Riman

COMMERCIAL PRODUCT PORTFOLIO: SHIPPED UNDER RIMANSTECH INDUSTRIES

Under Bassey Riman's leadership as founder and principal architect, RimansTech has conceived, engineered, and shipped five distinct software products addressing real market needs. Each system has an independent live domain, production codebase, and dedicated user interaction paradigm?spanning clinical diagnostic tools, voice-orchestrated mobile fashion, browser-based agentic guidance, tabletop educational simulations, and multi-tenant generative curriculum platforms.

03 | VISUAL ARTIFACTS: PRODUCT HARDWARE & CLINICAL INTERFACE PARITY

Fig 2.3: AI Quest Physical Box Set

04 | DEPLOYED PRODUCT MATRIX: SPECIFICATIONS, STACK & COMMERCIAL MODELS

AlzDetect	alzdetect.live	Next.js 15 / FastAPI / ViT-B/32

99.00% accuracy MRI classification platform with 12-layer attention rollout and clinical validation.

AI Quest	aiquestgame.com	TypeScript / WebAudio / Prepress

7-stage ML simulation platform (240 cards, 15 domains, zero-scroll mobile cockpit, rooftop events).

VoiceDress	voicedress.com	Next.js 16 / FASHN AI / Stripe

Voice-orchestrated virtual styling PWA with multi-stage diffusion try-on and recurring Stripe memberships.

Pointly	gopointly.com	Manifest V3 / Node / Express

Chrome/Edge AI navigation extension with dynamic DOM pointers and zero-auto-click safety guarantees.

Young AI Explorers	youngaiexplorers.net	Next.js 16.2 / React 19 / Supabase

AI-native learning platform companion to published Amazon book; 38 lessons across 6 islands.

05 | LONDON INDUSTRY SHOWCASE: AI QUEST AT CLOUDM ROOFTOP, TOWER OF LONDON

Fig 3.1: Official Eventbrite Showcase Banner: AI Quest London Board Game Playtesting & Rooftop Networking

Event Leadership & Community Engagement:
On Friday 13 November 2026, RimansTech Industries hosts an official in-person playtesting and AI industry networking evening at the cloudM Rooftop Bar (citizenM Tower of London, 40 Trinity Square, London EC3N 4DJ). The ticketed Eventbrite event brings together software engineers, data scientists, ML researchers, and product designers to playtest the Engineer Edition of AI Quest, evaluate rule mechanics, and foster collaboration across London's thriving AI technology ecosystem. Admission is free with registered tickets.

VENUE: cloudM Rooftop Bar, citizenM Tower of London, EC3N 4DJ

DATE & TIME: Friday 13 November 2026 | 5:30 - 9:30 PM

EVENTBRITE TICKETING: https://www.eventbrite.com/e/ai-quest-london-board-game-playtesting-rooftop-networking-tickets-2003906013831
